GLO survey by John W. Meldrum, under contract No. 116 dated Dec. 12, 1867 - (DCSO records Vol. 1 Page(s) 177)

Set ¼ sec. post; from which
A Maple, 8" dia., bears S.20°E., 6 lks.
A Fir, 30" dia., bears N.60°E., 11 lks.

BLM dependent resurvey by Thomas A. Tillman,, under Group # 297, Surveyed May 1951 thru Oct 1952 - (DCSO records Vol. 27 Page(s) 11714)

The ¼ sec. cor. of secs. 33 & 34, located at the record bearing & dist. from the stump of the orig. NW BT as follows:
A rotted Fir stump, 54" dia., bears N.60°W., 11 lks., sawed off flush with the ground on uphill side, with no blaze remaining; Ray Dailey says that his father saw this stump when it had scribe marks, but that it was sawed off lower so that a log could be rolled over it by use of a jack screw.
An uprooted Alder, 30" dia., bears N.28°W., 21 lks., a rotted blaze facing the cor. shows possible traces of scribe marks; to the side of blaze under cover of dirt are old axe marks seeming to be a figure 4; higher on the trunk and more recent are marks in bark ¼ S and X. Ray Dailey says that Charles M. Collier, US Cadastral Engineer, retraced that S. ½ mile between secs. 33 & 34, in 1918, while checking position of cor. of secs. 3, 4, 33, & 34, on the S. bdy. of the Tp. At that time he marked this Alder to perpetuate the ¼ sec. cor. of secs. 33 & 34; I find no record of the retracement but the blazed agree for age.
At the corner point
Set an iron post, 3' long, 1" dia., 28" in the ground, and in a mound of stone to top, with brass cap marked:

¼
S 33 S 34
1951

from which new BTs
A double Maple, 36" dia., bears S.35°45'E., 62 lks., mkd: ¼ S34 BT.
An Alder 24" dia. bears S.47°45'W., 35 lks., mkd: ¼ S33 BT
