Cut out all marks, and remark AP on N. face; then cut out all  
bearing trees and remark AP BT.

File 60/24-6

-----  
Found - Orig. 30" now 36" Fir stump, bears N.10°E., 9.9 ft.  
from face. Faint scribing visible on a bark  
blaze.  
Orig. 18" now 24" Fir windthrow, has double bark  
blaze, but no scribing visible. This tree has  
been recently chopped open. No sign of inner  
face. I can tell quite accurately where this  
tree stood and the original location of the face  
bears S.50°W., 8.6 ft.  
Referencing from the above evidence, I SET a 1½" I.P. with  
a 2½" brass cap stamped: "County Surveyors Office A.P. T27S  
S34 T28S S3 R2W 1979". I.P. 32" into the ground. Brass cap  
is 4" above ground.  
New BTs- 10" Cedar bears N.2°W., 41.6 ft. scribed "AP CS BT"  
on a double blaze.  
6" Yew bears N.43°E., 30.9 ft. scribed "AP CS BT" on  
a double blaze.  
6" Yew bears S.52°W., 47.5 ft. scribed "AP CS BT" on  
a double blaze.  
Placed County BT signs on all BTs.
