FIELD NOTES

DONATION LAND CLAIMS

T22 R9

CHAINS	
	T22S R9W DLC #38
34.00	A branch 5 lks wide course S E.
41.50	A branch 4 lks wide course S E.
46.10	A branch 3 lks wide course S E.
58.10	The witness cor for N W cor of claim 38.
	The fir is still standing 40 ins diameter S 40°E,
	36 lks dist. marked Claim 38 B. T.
	The maples are both gone.
	Set fir post 4 ins square 4 ft long 24 in in the
	ground for witness cor. marked W. C. Cl. 38.
	I now proceed to the witness cor of N E cor
	of claim 38. At this corner I find the post missing
	but both witness trees are standing viz. A fir 15 in
	now 30 in dia S 80°W 43 lks distant, markings all
	grown over which I cut away and find the letters per-
	fectly distinct on the sound solid wood. The other
	tree, a fir 15 ins now 24 ins diam N 5°E 50 lks dist
	is dead and all the markings are burned or decayed.
	From the green tree I measure N 80°E 43 lks. and set
	a sand stone 15 x 10 x 8 ins 10 ins in the ground
	for witness cor of claim 38.
	Marked W C Cl. 38.
	I set a flag at this cor and cross to South side and
	left bank of river to a point on line due South of
	cor and to determine distance across. I measure from thi
	this point on line due East 5.00 chs to a point from
	which my flag bears N 24°W from the flag the East end
	fo base bears S 24°E. Therefore the distance is tan 66°
	x base or 2.246 x 5.00 = 11.23 chs from which sub-
	stract 2.87 the distance of witness cor, from true
	cor. 11.23 - 2.87 = 8.36.
8.36	To south and left bank of river course of river at
	this point S 70°W irregular ascent.
17.75	To S W cor. of claim 39 ascend irregular steep west
	slope of ridge
