OFFICE OF THE SURVEYOR
ROSEBURG, OREGON 97470

April 25, 1978

Bureau of Land Management
William Glenn
P. O. Box 2965
Portland, OR 97208

Re: William Morin DLC #48, sections 13 and 24, T. 27 S. R. 7 W. W.M.

It is the finding of this office that the east and west boundary lines of DLC #48 are 10 chains + longer than shown on the original 1862 GLO plat and the original GLO field notes.

The evidence is based on our file maps M 33 - 41, James Byron, 1968; M 68 - 63, Glenn Baughman, 1978; and evidence found in the field by our corner renewal crews.

Maps and sketches are enclosed. Please contact this office if there are further questions.
