

Retracement of Portion North Bdy., T. 20 S., R. 10 W.

CHAINS
300.35

Fall 2.81 chs. N. of a point which I ultimately accept as the cor. of Tps. 19 and 20 S., R. 10 W., where I find evidences of a cor., though not in agreement with the description given in the field notes of the Martin survey. At this point I find three old and decayed fir stubs, one plainly marked, and the other two apparently showing indications of having been marked, but so badly defaced by fire that certain identification is difficult. This is very evidently the cor. accepted by Chandler in his survey of T. 19 S., Rs. 9 and 10 W. The range line running North from this point is fairly well marked, but no evidence of survey is found further south. This point appears to be locally recognized as the Tp. cor. and I so accept it and re-establish the cor., as follows: No monument or definite point is found. The three stubs, above mentioned, are close together and indicate a point at which I

Set a sandstone, 20x12x6 ins., 12 ins. in the ground, for cor. of Tps. 19 and 20 S., R. 10 W., marked 19 S on N., 20 S on S., 10 W on W., with 6 grooves on N., S. and W. faces; from which

An alder, 18 ins. diam., bears S.45°W., 21 lks. dist., marked T 20 S R 10 W S 1 B T.

A chinquapin, 20 ins. diam., bears N.52°W., 23 lks. dist., marked T 19 S R 10 W S 36 B T.

No iron post available for this corner.

A fir stub, 24 ins. diam., 10 ft. high, bears S.49°E., 15 lks. dist., badly defaced by fire, showing indications of scribe marks on the bark.

A fir stub, 24 ins. diam., 3 ft. high, bears S.20°W., 5 lks. dist., plainly scribed on the bark, R 10 W S 1 B T.

A fir stub, 36 ins. diam., 6 ft. high, bears N.80°W., 11 lks. dist., badly defaced by fire, showing evidence of old blaze on the bark.
