 S.50*W 6.00 chs.
 S.53*W 1.14 chs. The meander post in West
 boundary of Sec. 6.

March 4th, 1867.

General Description

The land in this township is very rough and mountainous,
 of no value with the exception of the River bottoms on
 Smith River which I have surveyed. The River bottoms
 are usually about half a mile wide, which is all the
 land that is of any value for either farming, grazing
 or timber.

The River bottom is all claimed by settlers, either by
 donation, preemption or homestead claims.

Subdivisions of T. 21 S., R. 10 W.
 As surveyed by W. H. Byars, Deputy Surveyor,
 under Contract No. 202, dated March 11, 1874.

The survey of Section 9 in Township 21 South, Range
 10 West.

Begin at corner to 4, 5, 8 and 9.
