

Subdivisions of T. 22 S., R. 7 W., W. M.

CHAINS

Retracement of line, bet. secs. 9 and 10.

I proceed as follows to locate the error of the discrepancy in the boundaries of Sec. 9:

39.41

South, on a blank line, bet. secs. 9 and 10.

To a point 435 lks. W. of the $\frac{1}{4}$ Sec. Cor., which is a

post, 4 ins. sq., 12 ins. above ground, mkd. and witnessed

as described by the Surveyor General.

Therefore, the N. half of this line is 39.65 chs. in

length and bears S.6*18'E.

From the $\frac{1}{4}$ Sec. cor. I run

South on a blank line.

40.21

To a point, 27 lks. W. of the cor. of Secs. 9, 10, 15 and

16, which is a post, 4 ins. sq., 20 ins. above ground,

mkd. and witnessed as described by the Surveyor General.

Therefore the S. half of this line, bears S.0*23'E.

Dec. 5, 1897.

GENERAL DESCRIPTION

All those parts of T. 22 S., R. 7 W., included in this survey are rough and mountainous, being covered generally with a heavy growth of timber and under-brush.

The soil, is 2nd or 3rd rate throughout the entire area, except a narrow strip of bottom land along Brush Creek, in Secs. 24, 25 and 36, which is 1st rate.

The timber is Fir, Cedar, Hemlock, Maple, Madrona, Dogwood, Alder and Yew. The timber in places is of large size and valuable.

Hazel, Vine-maple, Salal-berry, Thimble-berry, Salmon-berry, Huckle-berry, Willow and Poison Oak, form a rank and tangled undergrowth.
