

Exterior Boundaries of T. 22 S., R. 11 W.

CHAINS

I set a temp. sec. cor. and run

West,

Var. 19°50'E.

- 1.90 A slough, 20 lks. wide, course W. from SE.
- 2.30 Leave same, course SW.
- 27.30 A slough, 20 lks. wide, course N.20°W.
- 32.10 A slough, 40 lks. wide, course NW.--soon bends N.
- 40.00 At this point I search for the $\frac{1}{4}$ sec. cor. which is described as a post with trench and mound but find no trace of same.
- 45.90 Slough, 30 lks. wide, course N.30°E.
- 60.50 Slough, 50 lks. wide, course NW.
- 62.50 Slough, 100 lks. wide, course N.60°E.
- 64.50 Leave same.
- 81.56 At this point I found remains of the mound at old cor. to sec. 5, 6, 31 & 32.
The post and bearing trees being gone, I reestablished the cor. as follows:
Set a post, 4 ft. long, 4 ins. sq. 12 ins. in the ground for cor. to secs. 5, 6, 31 & 32, marked T 21 S S 32 on NE., T 22 S S 5 on SE., R 11 W S 6 on SW. and S 31 on NW. faces, with 5 notches on E. & 1 notch on W. edges, dug pits 18x18x12 ins. in each sec. 5 $\frac{1}{2}$ ft. dist. and raised a mound of earth 2 ft. high, 4 $\frac{1}{2}$ ft. base around post.
From this cor. I ran
East, bet. secs. 32 & 5.
Var. 19°50'E.
- 40.39 Reestablished $\frac{1}{4}$ sec. cor. at proportionate distance as follows:
Set a post 3 ft. long, 3 ins. sq., 24 ins. in the ground for $\frac{1}{4}$ sec. cor. marked $\frac{1}{4}$ S on N. face, dug pits 18x18x12 ins. E. & W. of post 5 $\frac{1}{2}$ ft. dist. and raised a mound of earth 1 $\frac{1}{2}$ ft. high, 3 $\frac{1}{2}$ ft. base along side.
