<p>The main portion of this Township is very mountainous, and heavy timbered with fir. The main stream in it is Yellow Creek, along which and along some smaller creeks are small bottoms of very rich land; there are also some large, slightly rolling flats, but covered with timber and brush, which will be settled upon; there are some burnt hills and Prairie hillsides, which are now used for grazing sheep, and which would be settled upon, as soon as the land is surveyed. The main obstacle</p>
