		<p>A cedar, 20 ins. diam., bears N.82*E. Dist. 23 lks. A hemlock, 20 ins. diam., bears S.70*E. Dist. 35 lks. A cedar, 30 ins. diam., bears S.30*W. Dist. 40 lks. A hemlock, 10 ins. diam., bears N.45*W. Dist. 10 lks. Land rough mountainous, 3rd rate Timber good. Excellent water privileges. Plenty of water and fall enough almost any where to secure all the power re- quired in any ordinary machine shop or mill. Mountains being very high and rough to the N. I consider it inexpedient to extend this exterior boundary any farther in this direction. This township contains some good land for farming along the creek bottoms and is well timbered with the various kinds of fir, oak, pine, cedar, laurel, maple, ash, chincapin, yew and dogwood. Underbrush same with hazle, tassalwood, mountain balm and vines and briers similar to all Oregon mountains and forests.</p>
