Subdivisions of T. 25 S., R. 7 W., W. M. Same Deputy and Cont.

CHAINS

I now go to the established NE cor. of sec. 32. T. 25 S., R. 7 W, which is a badly decayed oak post, in its place a new laurel post, 3 ft. long, 4 ins. sq. 24 ins. in the ground marked, T 25 S S 28 on N E. R 7 W S 33 on S E. S 32 on S W, and S 29 on NW faces with 1 notch on S and 4 notches on E edges. The old witness trees having all been destroyed by fire, I therefore establish new bearing trees as follows:

A Cedar, 12 ins. diam., bears N.10*E., 322 lks. dist. marked T 25 S R 7 W S 28 B T.

(This being out of limits) I dig pit 18 x 18 x 12 ins. NE of cor. 5½ ft. dist.

No living tree within limits in sec. 33, dig pit 18 x 18 x 12 ins. 5½ ft. dist. SE. of cor. and raise mound of earth 4 ft. wide, 2 ft. high, W. of cor.

A Fir, 30 ins. diam., bears S.29*W., 170 lks. dist. marked T 25 S R 7 W S 32 B T.

A Fir, 30 ins. diam., bears N.86*W., 152 lks. dist. marked T 25 S R 7 W S 29 B T.

Thence I run

East, on a random line between secs. 28 and 33.

Va 20*E.

Ascend from cor.

40.00 Set temp. ¼ sec. cor.

61.74 Offset N, 3 chs. to avoid rocky bluff.

75.50 Offset back to line.

82.96 The cor. to secs. 27, 28, 33 and 34, which is a White Oak post set by the county, in place of original cor. from which the original witness trees bear as follows:

A Fir, 18 ins. diam., bears N.84*E., 200 lks. dist. marks overgrown.

A Maple, 16 ins. diam., bears S.40*E., 62 lks. dist. marks overgrown.
