

39  
Retracement of the East Bdy. T. 25 S., R. 9 W.

CHAINS

The sun was obscured at noon today; observation for lat. impossible.

July 18, 1911

At the cor. of secs. 13 and ~~18~~<sup>24</sup>

Thence I run

North, retracing the East Bdy. of sec. 13

This line is well cut out and blazed, and corners are in good condition

38.40 Fall 40 lks. E. of the  $\frac{1}{4}$  sec. cor., bet. secs. 13 and 18 (which is a sandstone, firmly set, marked and witnessed as described by the Surveyor General, and which I now change to refer to sec. 13, T. 25 S., R. 9 W. only) The true course of this line is N.0°36'W., and the length is 38.40 chs.

76.04 Fall 90 lks. west of the cor. of secs. 7, 12, 13 and 18 (which is a sandstone, firmly set, marked and witnessed as described by the Surveyor General, and which I now change to refer to secs. 12 and 13, T. 25 S., R. 9 W., only). The true course of this line is N.0°46'W. and the length is 37.64 chs.

Sky was overcast at noon. Lat. observation not possible

July 19, 1911

At the cor. of secs. 12 and 13, on East bdy. of Tp.

Thence I run

North, retracing the East bdy. sec. 12.

39.10 Fall 40 lks. W. of the  $\frac{1}{4}$  sec. cor. bet. secs. 7 and 12 (which is a sandstone (instead of a hamlock post), firmly set, marked  $\frac{1}{4}$  on W. face, and witnessed as described by the Surveyor General, and which I now change to refer to sec. 12, T. 25 S., R. 9W., only) The true course of this line is N.0°35'E., and the length is 39.10 chs.
