

Subdivisions of T. 26 S., R. 1. W., W. M.

CHAINS	
	At the cor. of secs. 17, 18, 19 and 20.
	Thence I run
	N.0*4'W between secs. 17 and 18.
	Over mountainous land, sparsely timbered and covered with dense undergrowth.
	Descend NW slope.
12.60	Enter grassy swamp.
15.50	Leave swamp.
17.50	Begin steep descent to river.
35.50	Left bank of North Umpqua river, course W.
	Set flag for observation from right bank. Then on right bank I find a point from which the flag bears S.0*4'E.
	From this point I measure a base line S.89*56'W, 3.00 chs., to a point from which the flag bears S.49*9'E.
	The distance across, therefore, is $\tan 40*55' \times$ base, or 0.867×3.00 , or 2.60 chs. Also, $35.50 + 2.60$ makes
38.10	Right bank of river. Ascend S slope.
38.70	U. S. Forest trail bears E and W.
40.00	Set a basalt stone 15 x 8 x 8 ins., 10 ins. in the ground for $\frac{1}{4}$ sec. cor. marked $\frac{1}{4}$ on W face, from which
	A fir, 48 ins. diam., bears S.31*E., 44 lks. dist., marked $\frac{1}{4}$ S 17 B T.
	A fir, 28 ins. diam., bears N.81*W., 60 lks. dist., marked $\frac{1}{4}$ S 18 B T.
58.40	Trail on ridge bears E and W.
63.30	Creek, 1 lk. wide, course E.
67.10	Trail bears NE and SW.
67.50	Ridge point descending SE.
	Descend NE slope.
70.00	Trail bears NW and SE.
78.00	Creek, 8 lks. wide, course SE.
	Ascend S slope.
