

Retracement-Reestablishment
Portion of S. Bdy. of T. 26 S., R. 2 W.

CHAINS

Cor. of Tps. 26 and 27 S., Rs. 2 and 3 W.

Thence I run

East, retracing the line bet. secs. 6 and 31

Across old burn, through scattering old growth of timber
and dense undergrowth of fir

6.14 Old trail, bears NE and SW

7.40 Top of ascent along southerly slope

15.10 Begin rapid descent

25.32 Stream in deep ravine, 2 lks. wide, course S; ascend

32.52 Top of spur, slopes S; descend

40.09 Fall 40 lks. S. of the point for $\frac{1}{4}$ sec. cor., located by
reference to both bearing trees as described by the
surveyor general; all other traces of the cor. have
disappeared. I re-establish this cor. in its original
position, as follows:

Set a cedar post, 3 ft. long, 3 ins. sq. 24 ins. in the
ground, for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ S 31 on N face and
6 on S face, witnessed by original bearing trees as
follows:

A fir, 24 ins. diam., bears N.75°E., 75 lks. dist.

Marked $\frac{1}{4}$ S B T

A fir, 24 ins. diam., bears S.12°E., 40 lks. dist.

Marked $\frac{1}{4}$ S B T

The true course and distance of this line is N.89°26'E.,
40.09 chs.

I continue my measurements East from the $\frac{1}{4}$ sec. cor.,
counting distance from Tp. cor.

Along general S slope

57.00 Descend gradual NE slope, through heavy timber

79.93 Fall 28 lks. S. of the cor. of secs. 5, 6, 31 and 32,
which is a cedar post, firmly set, marked and witnessed
as described by the surveyor general

The true course and distance of this line from the $\frac{1}{4}$ sec.
cor. is N.89°36'E., 39.84 chs.
