S.33 $\frac{1}{2}$ *W.	3.00	
S.31 $\frac{1}{2}$ *W.	10.50	
S.47*W.	15.00	
S.67 $\frac{1}{2}$ *W.	18.00	Thence, to meander post on West

line of Township and of Sec. 19.

GENERAL DESCRIPTION

The quality of land in this township is about the common average, the greater part being of the second, and third qualities of land.

There is a limited amount of good prairie which is usually found near the river and its tributaries. The North Umpqua River is a bold rapid stream running the entire length of the Township from east to west.

This township is well supplied with an abundance of timber for all the practical purposes of life; fir, oak, cedar, sugar pine, ash, maple & laurel are plenty and easy of accessability.
