

Retracement of the 6th Standard Parallel S., thru R. 2 W.

CHAINS

Soil, 2nd rate.

Timber, heavy Fir and Hemlock.

Dense undergrowth of little Fir and Hemlock.

September 11, 1911.

At the Standard cor. of Secs. 33 and 34.

Thence I run

West, retracing the South Bdy. of Sec. 33.

Over mountainous land, through dense timber and underbrush.

0.87 Intersect the closing cor. of Secs. 3 and 4, T 28 S., R. 2 W., which is a post, firmly set, marked and witnessed as described by the Surveyor General.

40.10 Intersect the Stand. $\frac{1}{4}$ Sec. cor. (which is a post, firmly set, marked and witnessed as described by the Surveyor General). I now change this cor. to an angle point as follows: - cut out all marks and remark A P on N. face; then cut out all bearing trees and remark A P B T. The course of this line is West, and the distance is 40.10 chs.

80.30 The Stand. cor. of Secs. 32 and 33 (which is a post, firmly set, marked and witnessed as described by the Surveyor General), bears N.25 lks. dist. I now change this cor. to an angle point, as follows: Cut out all marks, and mark A P on N face; then cut out all bearing trees and remark A P B T. The course of this line, from the $\frac{1}{4}$ Sec. cor., is N.89°39'W., and the length is 40.20 chs.

Land, mountainous.

Soil, 2nd rate.

Timber, heavy Fir and Hemlock.

Dense undergrowth of little Fir and Hemlock.

September 12, 1911.
