

## Retracement of the 6th Standard Parallel S. thru R. 2 W.

## CHAINS

At the Standard cor. of Secs. 32 and 33.

Thence I run

West, retracing the S boundary of Sec. 32.

Over mountainous land, through dense timber and underbrush.

- 0.82 The closing cor. of Secs. 4 and 5, T. 28 S., R. 2 W., (which is a post, firmly set, marked and witnessed as described by the Surveyor General,) bears S 1 lk. dist.
- 42.20 The Standard  $\frac{1}{4}$  Sec. cor. (which is a post, firmly set, marked and witnessed as described by the Surveyor General), bears S. 30 lks. dist. I now change this cor. to an angle point, as follows: cut out all marks and remark A P on N face; then cut out all bearing trees and remark A P B T. The course of this line is S.89°36'W and the length is 42.20 chs.
- 80.41 The closing cor. bet. Secs. 5 and 6, T. 28 S., R. 2 W., (which is a post, firmly set, marked and witnessed as described by the Surveyor General,) bears South, 100 lks. dist.
- 80.52 The Standard cor. of Secs. 31 and 32, (which is a post, firmly set, marked and witnessed as described by the Surveyor General), bears S. 100 lks. dist. I now change this cor. to an angle point as follows: Cut out all marks and mark A P on N face; then cut out all bearing trees and remark A P B T. The course of this line from the  $\frac{1}{4}$  Sec. cor. is S.88°57'W., and the length is 38.33 chs.

Land, mountainous.

Soil. 2nd rate.

Timber, heavy Fir and Hemlock.

Dense undergrowth of little Fir and Hemlock.

September 13, 1911.
