

Subdivisions of T. 28 S., R. 5 W.

CHAINS

General Description

This Township is hilly on the South--SW. and NW--generally timbered with Yellow and White Oak and Laurel, mostly Open except on the steep slopes of hills and ravines where there is considerable Fir, Maple, etc., with a dense undergrowth of Vine-Maple, Briar, Hazel, etc. Soil, first, second and third rate. The valleys are generally level and rolling prairie and Oak openings. Soil, principally first and good second rate.

The mountains in the SW. corner are very high. The two noted are probably the highest in the valley and estimated by us from 2500 to 3000 feet above the valley. The soil on the mountain slopes is often first rate black clay, producing a large growth of good grass, Wild Clover, Rye, etc.

Subdivisions of T. 28 S., R. 5 W.,
As surveyed by A. R. Flint and L. L. Williams
Under Contract 151, dated May 23, 1871.

North on line between secs. 35 and 36.

Va. $19\frac{1}{2}$ *E.

20.50 Summit of ridge.

40.00 Set post to $\frac{1}{4}$ sec. corner, from which

A B. Oak, 8 ins. diam., bears N.75*W., 225 lks. dist.

Stone one foot above ground marked with an X bears N.30*E., 33 lks. dist.

60.00 A creek, 4 lks. wide, Course SE.

80.00 Set post to corner secs. 25, 26, 35 and 36, from which

An Ash, 18 ins. diam., bears N.45*E., 105 lks. dist.

A B. Oak, 12 ins. diam., bears N.5*E., 140 lks. dist.

A Laurel, 24 ins. diam., bears S.50*W., 140 lks. dist.

A Laurel, 24 ins. diam., bears S.20*E., 125 lks. dist.

Land, second rate. Much of this mile is open Oak hills, generally good grazing land.

Timber, Fir, Oak, Laurel and Pine.
