

Portion of the North Bdy. of T. 30 S., R. 1 W.,
A surveyed by Fred Mensch, Deputy Surveyor,
Under Contract No. 757, dated Sept. 14, 1904.

CHAINS

I commence at the cor. of secs. 5, 6, 31 and 32, on the N. Bdy. of T. 30 S. R. 1 W. which is nearly obliterated. The old cor. which was a post, has disappeared and the Laurel and the Chinquapin described as bearing trees in secs. 5 and 32 have fallen and decayed. The marks on the other bearing trees are nearly indistinguishable.

I destroy the old marks and re-establish the cor. in its original position as follows:

Set a basalt stone 15x12x6 ins. 10 ins. in the ground for cor. of secs. 5, 6, 31 and 32, marked with 5 notches on E. and 1 notch on W. edge., from which

A Laurel, 24 ins. diam., bears N.88*E., 55 lks. dist., marked T 29 S R 1 W S 32 B.T.

A white fir, 10 ins. diam., bears S.38*E., 49 lks. dist., marked, T 30 S R 1 W S 5 B. T.

A white fir, 12 ins. diam., bears S.56*W., 37 lks. dist., marked, T 30 S R 1 W S 6 B. T.

A red fir, 18 ins. diam., bears N.61*W., 38 lks. dist., marked T 29 S R 1 W S 31 B. T.

From this cor. J. Hutchinson's cabin bears N.45*W. about 5.00 chs. dist.

Thence I run

East on a random line along the N. Bdy. of T. 30 S. R. 1 W. setting temp. $\frac{1}{4}$ sec. and sec. cors. at intervals of 40.00 chs., and at 243.53 chs., intersect N. and S. line, 50 lks. S. of cor. of secs. 2, 3, 34 and 35, which is nearly obliterated. The old cor. which was a post has disappeared but indistinct remains of the mound of stone still remain. The fir and the maple described as bearing trees in secs. 2 and 3 have fallen. The other trees are standing but the marks are nearly indistinguishable.

I destroy the old marks and re-establish the cor. in its original position as follows.,

Set a basalt stone 15x10x4 ins., 10 ins. in the ground for cor. of secs. 2, 3, 34 and 35, marked with 2 notches on E. and 4 notches on W. edges., from which

A red fir, 12 ins. diam., bears N.69*E., 109 lks. dist., marked T 29 S R 1 W S 35 B. T.

A cedar, 18 ins. diam., bears S.82*E., 73 lks. dist., marked T 30 S R 1 W S 2 B. T.

A white fir, 24 ins. diam., bears S.86*W., 91 lks. dist., marked T 30 S R 1 W S 3 B. T.

A maple, 4 ins. diam., bears N.37*W., 57 lks. dist., marked T 29 S R 1 W S 34 B. T.

Aug. 6, 1905.

The falling of the random line run August 6 answers to a correction of 0*7' or 16 $\frac{1}{2}$ lks. N. per mile, counting from the cor. of secs. 5, 6, 31 and 32.

Therefore I run

S.89*53'W., bet. secs 3 and 34, marking and blazing true line.
