

General Description T. 30 S., R. 1 W.

CHAINS

No evidence of mineral was found.

The normal magnetic declination is about 21\*E., with considerable local irregularity.

The nearest supply point is Tiller, about 12 miles distant by road and trail. The nearest wagon road point is about six miles distant.

Fred Mensch

U. S. Cadastral Engineer.

Dependent Resurvey of Willamette Meridian through T. 30 S. As surveyed by Fred Mensch, U.S. Cadastral Engineer Under special instructions, dated June 7, 1922.

From the cor. of Tps. 30 and 31 S., R. 1 W., on the Will. Meridian, I retrace the Will. Meridian N. through T. 30 S., finding each half mile to closely agree with the original record in bearing and but two half miles to disagree in measurement, and I, therefore, adopt the original record for this line, except for the two half miles as hereinafter shown.

From the cor. of Tps. 30 and 31 S., R. 1 W., on the Will. Meridian, heretofore described, in Book "B".

North, on a dependent resurvey of the east boundary of Sec. 36, T. 30 S., R. 1 W.

Note: For topography of this line see original field notes by Homer D. Angell, U.S.D.S., under Contract No. 746, dated May 5, 1902.

3.58 Set an iron post, 3 ft. long, 1 in. diam., 27 ins. in the ground, for  $\frac{1}{4}$  sec. cor., of sec. 31 only, T. 30 S., R. 1 E., with brass cap marked

$\frac{1}{4}$ S31  
1923

from which

A fir, 32 ins. diam., bears N.3\*E., 90 lks. dist., marked  $\frac{1}{4}$  S 31 B T.

A fir, 20 ins. diam., bears S.3\*E., 30 lks. dist., marked  $\frac{1}{4}$  S 31 B T.
