

## Re-survey of Subdivision Lines of T. 30 S., R 2 W.

CHAINS

I return to the meridian established from Polarius observation August 3, and 4. At 9 A.M. l.m.t. I set off  $42^{\circ}59'$  on the lat. arc.  $5^{\circ}2'N.$ , on the decl. arc., and test the adjustments of the solar, finding it gives the same meridian as before and adjustments correct.

At 3 P.M. l.m.t. I set off  $42^{\circ}59'$  on the lat. arc.  $4^{\circ}56'N.$ , on the decl. arc. and again test the solar adjustment, finding it gives the same meridian as before and adjustments correct.
