

Resurvey of North Boundary of T. 32 S., R. 1 W.

CHAINS

A fir, 12 ins. diam., bears S.86*W., 60 lks. dist.,
mkd. T 32 S R 1 W S 5 B T.

A fir, 10 ins. diam., bears N.88*W., 57 lks. dist.,
mkd. T 31 S R 1 W S 32 B T.

I destroyed the marks on the fir that bears S.35*E., and
remark the remaining 3 trees.

I then continued the line West from this cor.

47.50 Top of ridge, bears N. and S. at a point about 100 ft.
above sec. cor.

And descend 300 ft. to

58.50 Creek, 20 lks. wide, runs North, and ascend gradually
150 ft. to

77.50 A point where the old 1/4 sec. cor. on S. bdy. of sec. 32
bears South, 177 lks. dist., which is a decayed post,
with 1 bearing tree still standing, which is a fir.
I destroyed this post and replaced it with a new cedar
post, 3 ft. long, 3 ins. sq. 24 ins. in the ground, mkd.
1/4 on S. and N. face, from which

A fir, 20 ins. diam., bears N.89 $\frac{1}{2}$ *W., 33 lks. dist.,
mkd. 1/4 S B T.

A cedar, 18 ins. diam., bears S.30*E., 35 lks. dist.,
mkd. 1/4 S B T.

Could find no traces of cedar described as bearing tree
in field notes of original survey, it having been des-
troyed by fire, or has fallen and decayed.

80.00 A point 2.50 chs. West of 1/4 sec. cor. and set a cedar
post, 4 ft. long, 4 ins. sq. 24 ins. in the ground for
cor. to secs. 5 and 6, marked T 32 S R 1 W on S. face,
S 5 on E. and S 6 on W. faces, with 5 notches on E.
and 1 notch on W. faces.

from which

A white oak, 12 ins. diam., bears N.35*E., 68 lks.
