

Subdivisions of T. 31 S. R. 5 W.

CHAINS

North, on Random line between secs. 3 and 4.

Va. 20°E.

Raise hill from post, facing South.

20.00 Descend hill, steep slopes West and North.

40.00 Temp. $\frac{1}{4}$ sec. cor.

80.00 Could find no evidence of survey nor could I identify the $\frac{1}{4}$ sec. cor. N. of this.

Set a post for closing corner. Set post 6x6 ins. by 4 ft. long, 20 ins. in ground, for corner to secs. 3 and 4, from which

A fir, 12 ins. diam., bears N.24°E., 10 lks. dist.

A fir, 6 ins. diam., bears N.83°W., 18 lks. dist.

> A fir, 20 ins. diam., bears S.38°W., 20 lks. dist.

A fir, 16 ins. diam., bears S. 82°E., 13 lks. dist.

South, on true line, between secs. 3 and 4.

40.00 Marked a Red Fir, 14 ins. diam., for $\frac{1}{4}$ sec. cor., from which

A fir, 10 ins. diam., bears S.79°E., 12 lks.

A fir, 10 ins. diam., bears N.11°W., 14 lks.

80.00 The cor. to secs. 3, 4, 9, and 10.

Land, rough and mountainous.

Timber, good, fir and cedar.

Undergrowth, briars gooseberries.

Survey, finished June 29, 1878.

General Description

These secs. are exceedingly rough and mountainous, so much so that I had to use the chain at 25 lks. most of the time. The timber in secs. 4, 5, and 6, very good.

Soil, mostly poor, rocky.
