Land, high and mountainous; soil, 2nd rate.

Densely covered with forests of fir, cedar, sugar pine and yew.

Thick undergrowth of fir, vine maple, dogwood, yew, matherone and arrowwood, 101.56 chains.

December 17, 1883.

GENERAL DESCRIPTION

The land in this township is mountainous and covered with dense forests of fir, cedar, pine and some oak of good quality and generally a thick undergrowth of fir, dogwood, maple, matherone etc.

The soil is generally 2nd and 3rd rate.

The Umpqua divide extends through the township.

Two settlers have claims, one each in secs. 32 and sec. 33.

The township is well watered by many small springs and branches.
