

Resurvey of Subdivision Lines of T. 32 S., R. 3 W.

CHAINS	
	From the cor. of Secs. 1, 2, 11 and 12, previously described, I run South, on a random line bet. Secs. 11 and 12.
40.00	The $\frac{1}{2}$ sec. cor. is not found after careful search. Set temp. $\frac{1}{4}$ Sec. cor.
80.48	Intersect E. and W. line 63 lks. E. of the cor. of Secs. 11, 12, 13 and 14, which is nearly obliterated. The old cor., which was a post, has disappeared. Two of the bearing trees are still standing, with marks barely distinguishable. I destroy the old marks and re-establish the cor. in its original position as follows: Set a granite stone 15x12x10 ins., 10 ins. in the ground, for cor. of Secs. 11, 12, 13 and 14, marked with 4 notches on S. and 1 notch on E. edge, from which A Laurel, 24 ins. diam., bears N.35*E., 40 lks. dist., marked T 32 S R 3 W S 12 B T. A Laurel, 12 ins. diam., bears S.33*E., 28 lks. dist., marked T 32 S R 3 W S 13 B T. A Laurel, 16 ins. diam., bears S.31*W., 66 lks. dist., marked T 32 S R 3 W S 14 B T. A Laurel, 10 ins. diam., bears N.32*W., 52 lks. dist., marked T 32 S R 3 W S 11 B T. Thence I run N.0*27*E., on a true line bet. Secs. 11 and 12. Over mountainous land through heavy timber and dense undergrowth. Descend NE. slope.
23.10	Gulch, C. E. Ascend SE. slope.
28.10	Summit of ridge, bears E. and W. Descend NE. slope.
40.24	Re-establish the $\frac{1}{4}$ Sec. cor. as follows: Set a Fir post, 3 ft. long, 4 ins. sq., 24 ins. in the ground, for $\frac{1}{4}$ Sec. cor., marked $\frac{1}{4}$ S. 11 on W. face and 12 on E. face, from which A Red Fir, 30 ins. diam., bears East, 20 lks. dist., marked $\frac{1}{2}$ S 12 B T.
