

Subdivisions, T. 32 S., R. 4 W.

CHAINS

There is no trace of any line extending E. or S. from this corner; therefore, since I found the E. bdy. of sec. 36 (i.e., the E. bdy. of the S. tier of secs.) to be 99.35 chs. in length, I run South from this corner on blank line.

7.02 To a point, 171 lks. W. of the closing corner of Tp. 33 S., Rs. 4 and 5 W., which is a stone 8 ins. sq., 6 ins. above ground, marked and witnessed as described by the surveyor general.

Since these measurements and positions disagree with the data furnished by the surveyor general, to corroborate the authenticity of my findings, before making any disposition of the SW. corner of sec. 31, I run East on a blank line, from the closing corner of Tp. 33 S., Rs. 4 and 5 W.

23.41 To a point 5 lks. N. of the Standard corner of Tp. 32 S., Rs. 4 and 5 W., which is a post 4 ins. sq., 24 ins. above ground, marked and witnessed as described by the surveyor general.

Aug. 20: At 9h. 40m., a.m., l.m.t., I set off $42^{\circ}44'N$. on the lat. arc and $12^{\circ}13'N$. on the decl. arc, and determine a true meridian with the solar at the closing corner of Tp. 33 S., R. 4 and 5 W.

At a point 171 lks. W. of this corner,
Set a basalt stone, 16 x 12 x 8 ins., 10 ins. in the ground, for the SW. corner of T. 32 S., R. 4 W., marked with 6 notches on N. and E. edges; from which,

A Fir, 10 ins. diam., bears $N.47^{\circ}E$., 32 lks. dist., marked T. 32 S., R. 4 W., S. 31, B. T.

This corner is on the NW. slope of mountain.

Thence,

North on a true line on W. bdy. of sec. 31; desc. mountain.
