

Retracement of Subdivisional Lines of T. 32 S., R. 5 W.

CHAINS

Soil, loam and gravelly, 2nd and 3rd rate.

Timber, Fir, Cedar, Pine, Laurel.

Undergrowth, Hazel, small Firs and Laurels.

August 19, 1901.

At the cor. of Secs. 26, 27, 34 and 35.

Thence I run

South, bet. Secs. 34 and 35.

Along on E. mountain slope, covered heavily with large Firs, Pines, Cedars, and dense undergrowth of Hazel, Arrowwood, small Firs and Pines.

40.38

$\frac{1}{4}$ Sec. cor. bears 195 lks. W., making true bearing of line S.2*47'W., the cor. having disappeared, I replace by setting a granite stone 16x12x10 ins., 11 ins. in the ground, for $\frac{1}{4}$ Sec. cor., marked $\frac{1}{4}$ on W. face, from which

A Fir, 8 ins. diam., bears N.80*E., 16 lks.

Marked $\frac{1}{4}$ S 35 B T. New bearing tree.

The other is the original B T as described by the surveyor general.

Continue to ascend E. slope of mountain slope, heavily timbered.

80.75

Intersect S. bdy. of Tp., Offset Meridian, 216 lks. E. of the old original well blazed line. The intersection of this old original line and Tp. line is 6.21 chs. E. of the genuine original cor., making true bearing of line S.9*10'W. This cor. of Secs. 34, 35, 2 and 3, I find to be a sandstone, 6x8 ins. x 3 ins. above ground, properly marked and from which

A Fir, 10 ins. diam., bears N.23*E., 25 lks.

Marked T 32 S R 5 W S 35 B T.

A Fir, 10 ins. diam., bears S.40*E., 52 lks.

Marked T 33 S R 5 W S 2 B T.
