

## Willamette Meridian Through T. 29 S.,

CHAINS

Land; mountainous.

Soil; stoney and 3rd rate.

Timber; fir, pine, laurel and cedar.

Undergrowth; laurel, willow and huckleberry.

Mountainous or heavily timbered land or land covered  
with dense undergrowth, 80.00 chs.

Sky overcast at noon;

Observation for lat. impossible.

*June 28, 1902*

ReSurvey and Retracement of the Willamette  
Meridian, through a portion of Tp. 29, South  
Between Ranges 1 East and 1 West, as surveyed  
by Fred Mensch, U. S. Deputy Surveyor, under  
his contract No. 797, dated April 19, 1910.

At a point on the Willamette Meridian, 43.20 chs. S. of  
the SE. cor. of T 29 S., R 1 W, I establish cor. for  
Tps. 29 and 30 S., R. 1 E, as follows:

Set a conglomerate stone, 15x12x10 ins., 10 ins. in the  
ground, for cor. of Tps. 29 and 30 S., R. 1 E, mkd. with  
6 notches on N., E., and S. edges, from which,

A cedar, 10 ins. diam., bears N.61\*E., 12 lks.

dist., mkd. T 29 S R 1 E S 31 B T

A fir, 24 ins. diam., bears S.49\*E., 19 lks. dist.,

mkd. T 30 S R 1 E S 6 B T

From this cor. the  $\frac{1}{4}$  sec. cor. on E. bdy. sec. 1, T 30 S,  
R. 1 W., bears South, 4.06 chs. dist. This cor. is a  
basalt stone, 5x12x5 ins. above ground, firmly set and  
mkd and witnessed as described by the surveyor general.

I re-establish this cor. in its original position as the  
 $\frac{1}{4}$  sec. cor. on E. bdy. sec. 1, T 30 S, R 1 W, only, as  
follows:

Stone already set and described, from which,

A fir, 24 ins. diam., bears S.30\*W., 54 lks. dist.,

mkd.  $\frac{1}{4}$  S 1 B T
