 SIUSLAW NATIONAL FOREST  
 OREGON

CHAINS

The disagreements between these field notes and the listed and entered descriptions regarding the courses and distances are due to errors in the latter.

The range line between secs. 31 and 36 never having been actually surveyed, owing to the mountainous character of the land, I do not think it advisable to attempt to place closing corners thereon, by calculation, where this claim intersects.

It being impracticable to take my assistants before an officer qualified to administer oaths without great inconvenience, delay and expense, I, myself, administer the required oath to the assistants.

July 29, 1914.
