## GENERAL DESCRIPTION

Section 7 is located in southwestern Douglas County, approximately  $1\frac{1}{2}$  miles southwest of Glendale, Oregon. The land is mountainous, with an elevation of 1,700 feet at the Northeast corner of section 7, ranging to 3,060 feet above sea level in the SW $\frac{1}{4}$  of the section.

Timber consists of Douglas fir, with scattering patches of incense cedar and ponderosa pine. Undergrowth is comprised of vine maple, chinquapin, madrone, white and black oak, manzanita, white thorn, salal, arrowwood, poison oak, and ceanothus.

The soil is a rocky clay, and is of considerable depth throughout the section except on the drainage divide, where the bedrock has been exposed by wind erosion.

Mean Magnetic Decl. 20° E.  
There is a range of 1° in local attraction.
