GENERAL DESCRIPTION

The lands included in the foregoing survey are located along the Umpqua River about 4 miles southwesterly from Elkton, Oregon. The area is drained by the Umpqua River and a number of small tributaries. The elevation ranges from about 220 feet above sea level at the Umpqua River on the north boundary of section 11 to about 1600 feet above sea level near the south boundary of section 3.

Access is by way of Mehl Creek Road and a number of logging and farm roads.

Soil in the area is composed of a sandy clay loam, from a few inches to several feet in depth. The bottom lands along the river are cultivated or are used as pasturage for sheep and cattle. The higher lands are forested with fir, hemlock,
