19.09	The SW 1/16 sec. cor. of sec. 13.
	Ascend 90 ft. over SE. slope.
29.40	Top of ascent, slopes S. 45° E.; desc. 25 ft. over SW. slope.
30.15	Creek, 1 lk. wide, course S. 45° E.; asc. 330 ft. over NE. slope.
39.98	The S 1/16 sec. cor. of secs. 13 and 14.
	<p style="text-align: center;">GENERAL DESCRIPTION</p> <p>The lands included in this survey are located near Camas Valley, Oregon. The area is drained by the Middle Fork of the Coquille River, Barry Creek, Bear Creek, and a number of their tributaries. Elevations range from about 1,000 feet above sea level near the center of section 7, along the Middle Fork of the Coquille River, to about 2,500 feet above sea level on top of Chimney Rock, located in the center of section 35.</p> <p>Access into the area is gained by way of State Highway Number 42, and a few paved, gravelled, and dirt roads branching from it.</p> <p>Soil in the area is composed of rocky clay loam in the higher elevations to sandy loam in the lower elevations.</p>
