6.90	Gravelled road, 25 lks. wide, bears N. 85° W. and S. 85° E.
19.45	Gravelled road, 30 lks. wide, bears N. 65° W. and S. 85° E., in curve.
19.89	The W 1/16 sec. cor. of secs. 24 and 25.
From the center N. 1/16 sec. cor. of sec. 25.	
S. 89° 49' W., on the E. and W. center line of the NW¼ of sec. 25.	
Ascend over SE. slope, across logged area.	
0.70	Gravelled road, 25 lks. wide, bears N. 50° E. and S. 40° W., in curve.
9.60	Spur, slopes S. 5° E.; desc. over SW. slope.
19.84	The NW 1/16 sec. cor. of sec. 25.
S. 89° 53' W., beginning new measurement.	
Descend over broken SW. slope, along S. edge of timber.	
12.40	Ravine, drains S.; asc. over broken SE. slope.
16.70	Gravelled road, 25 lks. wide, bears N. 5° W. and S. 5° E.
19.91	The N 1/16 sec. cor. of secs. 25 and 26.
GENERAL DESCRIPTION	
<p>The land included in the notes of the foregoing survey are located about 1½ miles west of Kellogg, Oregon. The area is drained by Mehl Creek and its tributaries, which drain northerly to the Umpqua River, and the tributaries of Waggoner Creek which drain easterly into the Umpqua River. Elevation ranges from about 400 feet above sea level on the line between sections 25 and 36, to about 1,060 feet above sea level on a ridge near the corner of sections 19, 24, 25, and 30.</p>	
<p>Access is by way of Bullock Road, Mehl Creek Road, and a number of privately owned logging roads.</p>	
<p>Soil in the area is composed of sandy clay loam, from a few inches to several feet in depth. Most of the bottom lands along Mehl Creek and some of the higher areas are used as pasturage for sheep and cattle. The remaining land is forested with fir, hemlock, cedar, maple, oak, madrone, alder, and willow timber; undergrowth consists of vine maple, hazel, arrowwood, salmonberry, poison oak, huckleberry, blackberry, ceanothus, Scotch broom, Oregon grape, salal, and fern.</p>	
<p>No evidence of mineral was noted in the area covered by the resurvey.</p>	
<p>The average of a considerable number of readings throughout the area gives a value of 20° E. for the mean magnetic declination. There is a range of 0° 30' due to local attraction.</p>
