from which bearing trees mkd. by Peterson.

A fir, 10 ins. diam., bears N. 36° E., 42 lks. dist., with healed blaze.

A hemlock, 15 ins. diam., bears S. 29° W., 26 lks. dist., with healed blaze.

**GENERAL DESCRIPTION**

The lands included in the foregoing survey are located in Douglas County. Section 22 is located approximately six miles northeasterly of the town of Scottsburg. This area is drained by Vincent Creek which runs through the center of section 22 and drains into the West Fork of Smith River.

Access into the area is by way of Smith River County Road, Vincent Creek Road, and Wells Creek Road. The soil is clay loam and rocky clay. The area is forested with fir, hemlock, cedar, alder, maple, myrtle, madrone, and tanoak. The undergrowth consists of vine maple, salal, salmonberry, huckleberry, Oregon grape, rhododendron, and fern.
