

# County Surveyor's Record, Douglas County, Oregon

18557 Dependent Resurvey of a Portion of the South Boundary,  
T. 30 S., R. 6 W. Willamette Meridian, Oregon

## CHAINS

from which the remains of bearing trees mkd. by George J. Wenderoth, Deputy County Surveyor, in 1946

A cedar, 18 ins. diam., bears S. 44° W., 41 lks. dist., with obliterated blaze.

A decayed sawed fir stump, 18 ins. diam., bears N. 37° W., 19 lks. dist., no marks visible.

and the remains of a bearing tree mkd. by James W. Byron, Deputy County Surveyor, in 1964

A sawed fir stump, 24 ins. diam., bears N. 33° W., 28 lks. dist., no marks visible.

and bearing trees mkd. by Jelley and Rogers in 1980-81.

A fir, 7 ins. diam., bears N. 24° E., 24 lks. dist., with healed blaze.

A fir, 28 ins. diam., bears S. 35½° W., 40½ lks. dist., with healed blaze.

From this point, an iron pipe, 1½ ins. diam., firmly set flush with the ground, bears S. 42° 14' E., 0.240 chs dist., with a plastic cap mkd. DOUG CO SURVEYOR and recorded in Douglas County Survey No. RM 3-26, amended by Larry E. Monrean, Deputy County Surveyor, in 1983, and recorded in Douglas County Surveyors File No. 62/9 and corner renewal file T. 30 S., R. 6 W. No. 154, from which the remains of bearing trees mkd. by Gary Langlitz, Deputy County Surveyor, in 1979:

A sawed fir stump, 18 ins. diam., bears N. 40° E., 49 lks. dist., no marks visible.

A fir, 18 ins. diam., bears S. 9½° E., 52 lks. dist., with obliterated blaze.

## GENERAL DESCRIPTION

The lands included in the foregoing resurvey are located in rolling hills about three miles south of Riddle, Oregon. The elevations range from about 1040 feet above sea level at the ¼ section corner of sections 1 and 36, to about 1200 feet above sea level near the corner of townships 30 and 31 south, ranges 5 and 6 west.

The area is drained by Shoestring Creek with numerous small and seasonal drainages flowing into it. The soil consists of a clay loam. The lands are forested with fir, cedar, maple, oak, madrone, willow, alder, pine, ash, and chinquapin. Undergrowth consists of ferns, poison oak, arrowwood, hazel, Oregon grape, salal, huckleberry, blackberry, thimbleberry, wild rose, and young timber.

Access is gained via an asphalt surfaced road along Shoestring Creek.

There were no mineral deposits noted along the line resurveyed.

The mean magnetic declination, as shown on the United States Geological Survey "CANYONVILLE, OREG." quadrangle map, 7½ minute series, provisional edition, dated 1986, is 18° 30' East.
