

TOWNSHIP 28 SOUTH, RANGE 5 1/2 EAST, OF THE WILLAMETTE MERIDIAN, OREGON

AMENDED PROTRACTION DIAGRAM FILE 17, UNIT 35

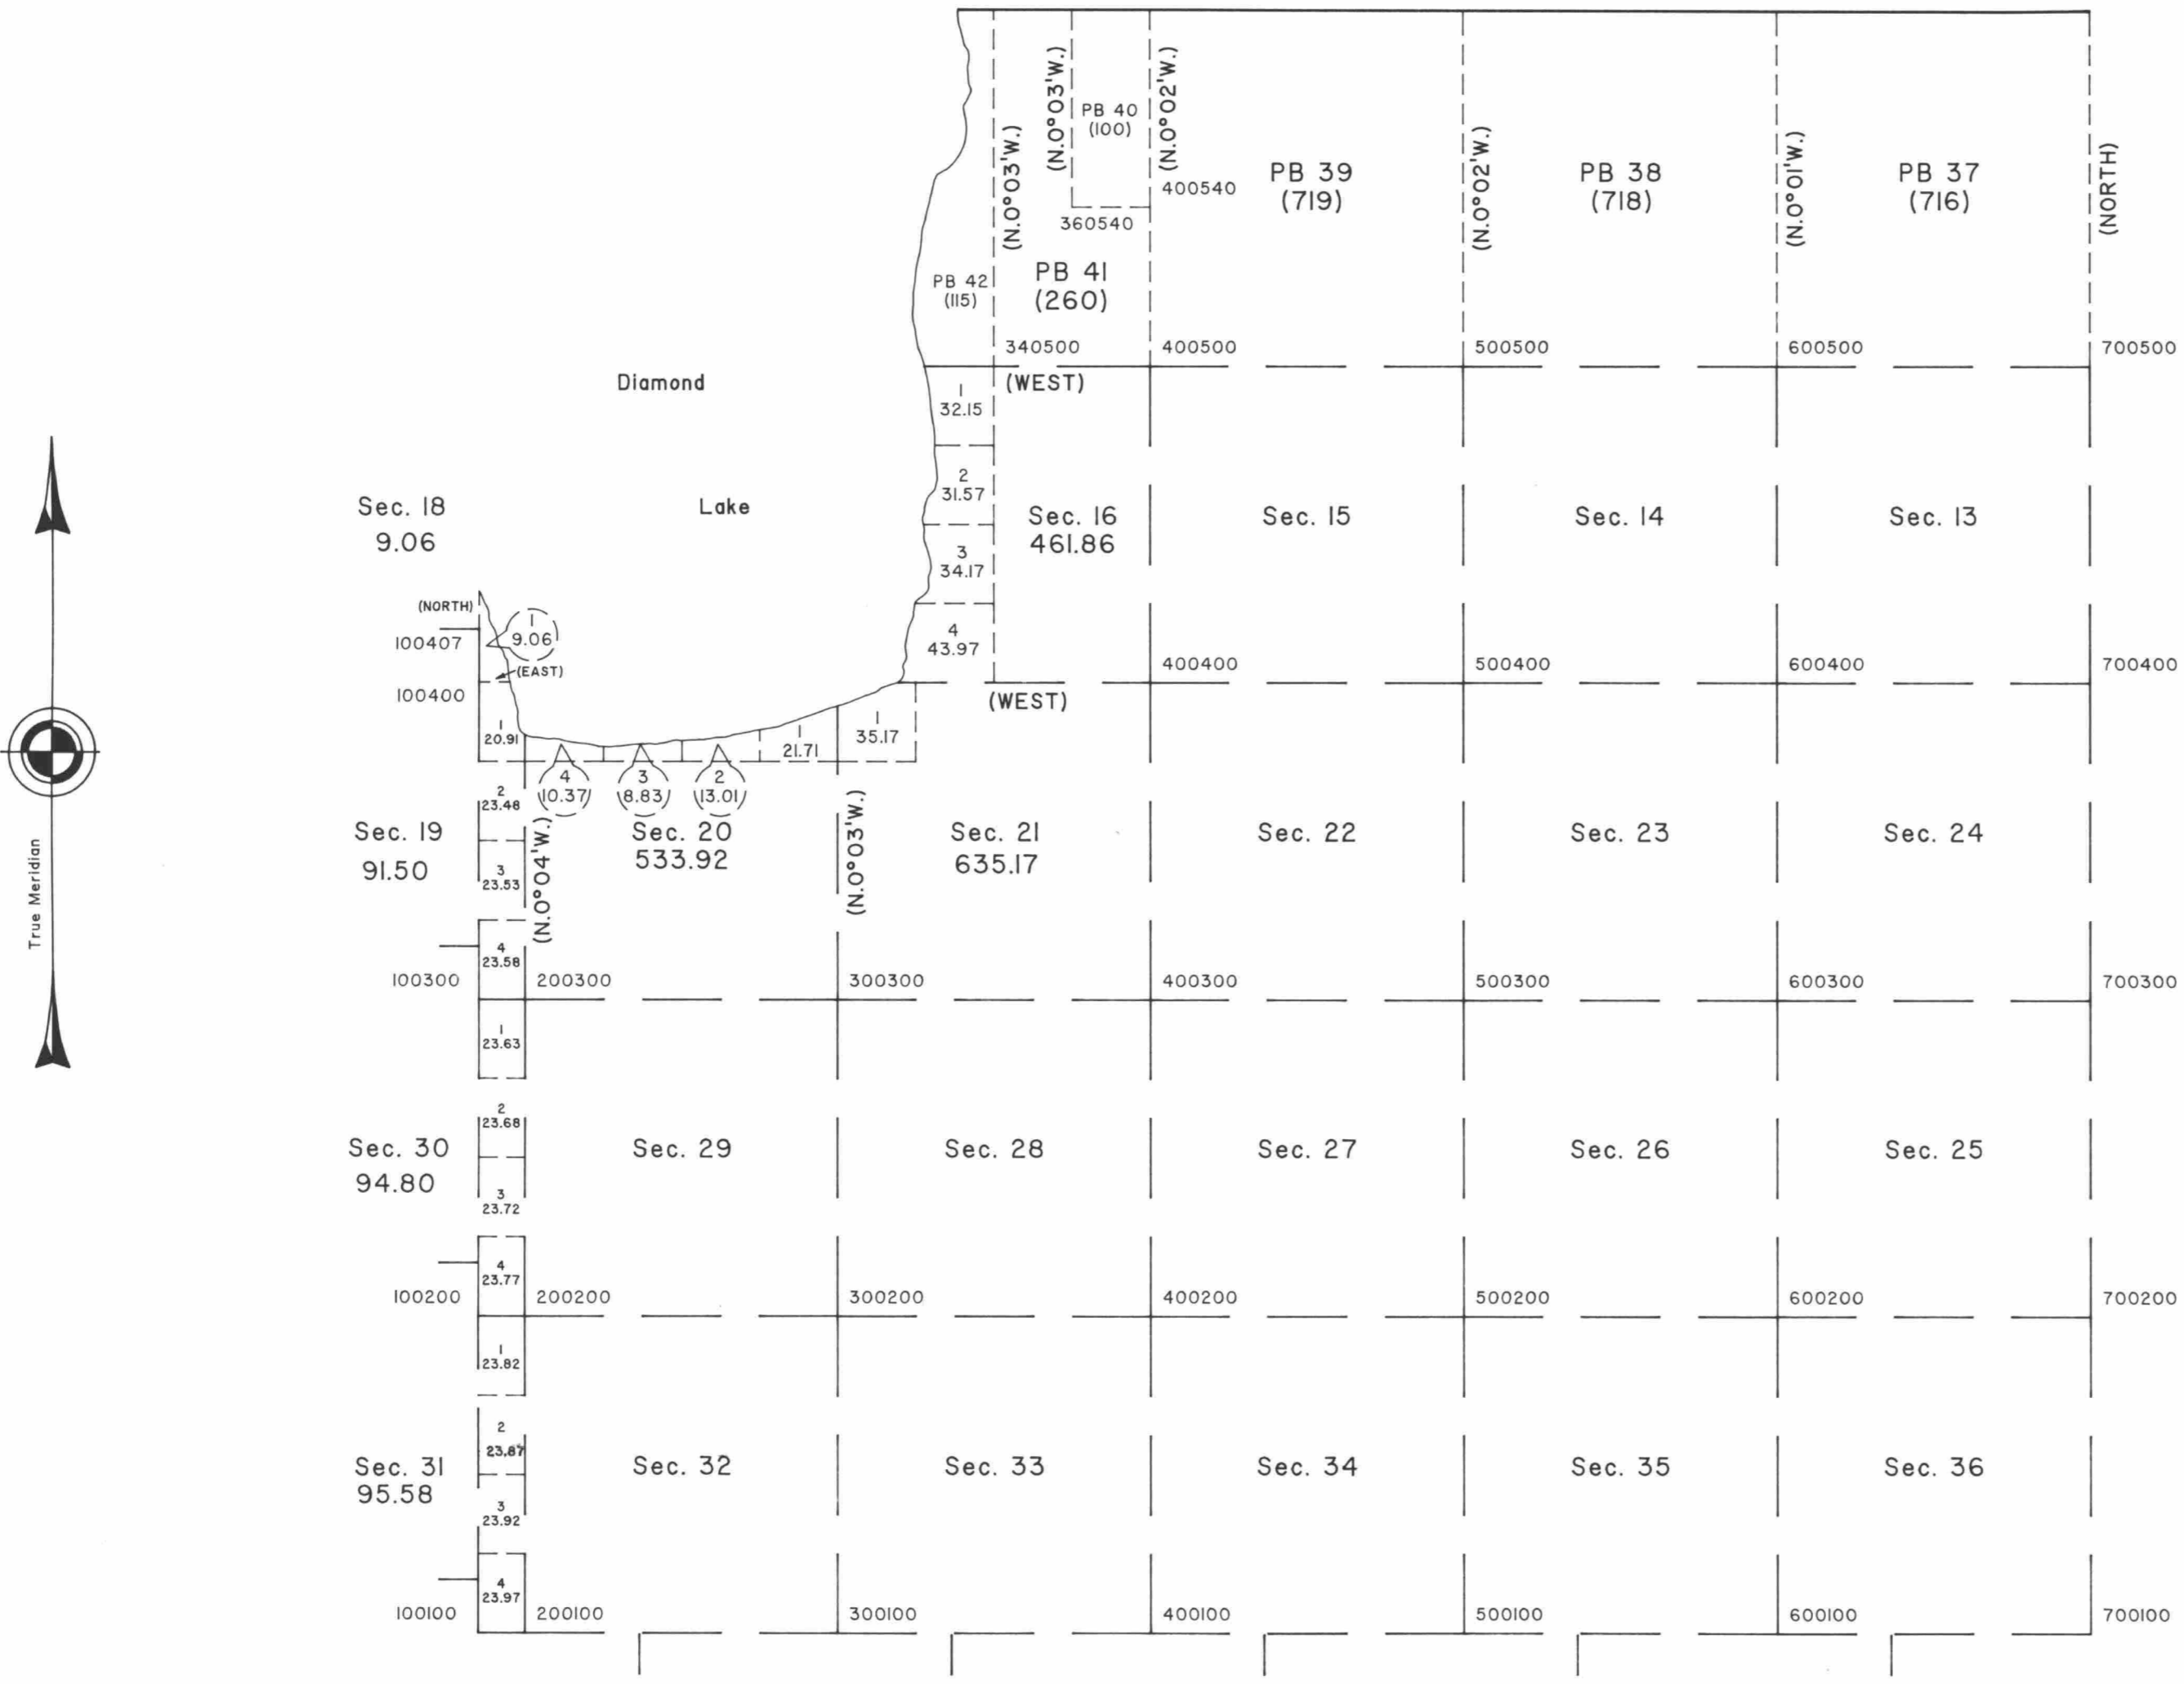

UNSURVEYED

This amended protraction diagram was prepared for the express purpose of describing unsurveyed public land. It does not constitute an official survey but establishes the plan for extending the rectangular survey system over these unsurveyed lands and may be used for leasing and administrative purposes only.

The actual area of protracted blocks (PB) shown on this diagram may vary due to the reliability of the survey information used to determine the positions of existing surveyed boundaries. A protracted block cannot be subdivided without an official survey. Unless otherwise shown, each unsurveyed section designated Sec. on the diagram contains 640 acres. The sections and lots on this diagram depict how the area may be surveyed; but until that time they will continue to be unsurveyed lands. Data shown in parentheses () is proposed information for the plan of survey and is subject to change.

This amended protraction diagram officially supersedes the existing protraction for this area, except where existing rights or administrative actions based upon the existing protraction are not adequately protected.

Latitudes and longitudes were computed to portray standard protracted sections using an elevation of 4000 feet for this township.

| Point ID | NAD 1983 Latitude | Longitude |
|----------|-------------------|-----------------|
| 100100 | 43°05'42.9073" | 122°09'50.0934" |
