Area resurveyed: 1,291.98 Acres

This plat represents a retracement and reestablishment of a portion of the south boundary and subdivisional lines, designed to restore the corners in their true original locations according to the best available evidence, and, subdivision of sections 9 and 33, T. 29 S., R. 3 W., Willamette Meridian, Oregon.

Except as new or modified, the lottings and areas are as shown on the plat approved August 11, 1881.

In 1857, Dennis Hathorn surveyed a portion of the south boundary and subdivisional lines. In 1881, William H. Byars retraced a portion of the Hathorn survey and completed the survey of the south boundary and subdivisional lines. William M. Bushey retraced a portion of the south boundary in 1893. In 1964-65, Donald R. Beck dependently resurveyed a portion of the subdivisional lines.

The resurvey and subdivision of sections 9 and 33 were executed by John M. Jelley and Lynn M. Roseberry, Cadastral Surveyors, beginning May 19, 1966, and completed October 27, 1967, under Special Instructions dated July 2, 1964, Supplemental Special Instructions dated January 24, 1966, and Second Supplemental Special Instructions dated September 25, 1967, which provide for the surveys included under Group No. 554, Oregon.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Washington, D. C. May 1, 1969

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

For the Director

Clark L. Gumm

Chief, Division of Cadastral Survey
