This plat represents a dependent resurvey of a portion of the subdivisional lines, T. 32 S., R. 6 W., Willamette Meridian, Oregon, designed to restore the corners in their true original locations according to the best available evidence.

The north boundary of the township was surveyed by Wells Lake and George W. Hyde, in 1855.

A portion of the subdivisional lines was surveyed by William H. Byars, in 1881.

Survey executed by G. Steven Popken, Cadastral Surveyor, from September 8, 1975, to September 25, 1975, under Special Instructions dated August 12, 1975, which provided for the surveys included under Group No. 883, Oregon.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Washington, D.C. January 20, 1978

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

For the Director

Roger T. Barron

Acting Chief, Division of Cadastral Survey

Timber in this area consists of fir, cedar, hemlock, pine, maple, madrone, alder, and chinquapin.
