

Survey for Amy E. Gray, Section 19, T. 32 S. R. 5 E., W.M.

Dec. 1947

I ran N 0°27' 30" W from the S W Corner of the SE 1/4 of the SW 1/4 of Section 19, which point I had established previously on a survey for J.B. Moore, to the southerly right of way line of the Pacific Highway a distance of 448.6 feet at which point I set a 3/4" x 36" iron bolt 30" into the ground I then traversed the centerline of said Highway easterly to its intersection with the fence line at the East side of the Amy E. Gray property. I then located the N E Corner of DLC #39 which I found marked by a 3/4" iron pipe from which 3 bearing trees as per notes. I produced the line from this DLC corner thru the fence corner at the highway on the south to its intersection with the South line of Section 19. As I could find no trace of the SE CORNER of DLC #39 and the line I had run south from the NE corner followed evidence of a fence line from the highway south to the section line and buildings and other evidence showed this to be the accepted property line I used it as such. I started at the South 1/4 corner of Sec. 19 and on the lines established ran N 89°57' E a distance of 850.3 feet and set a 3/4" x 30" Drill Steel 24" into the ground then N 0° 05' 30" W a distance of 1052.3 feet to a point on the Southerly right of way line of said Highway at which I set a 3/4" x 30" Drill steel 24" into the ground. I then calculated my distance along the southerly right of way line to complete the description of the parcel as shown on the accompanying sketch.
