Section 23, T29S, R5W, W.M. Douglas County Oregon.

Survey for H.A. Adams, Myrtle Creek, Oregon. By R.R. Ecker, L.S? 158

The Southeast corner, a 1" iron pipe set by the county surveyor in a survey for Ken Winston whose North boundary is common, and the southwest corner, a pipe, also set by county surveyor were used as control for the survey. the west boundary being at right angles to said south boundary to a fence line. The client owned much land north of this boundary so the north boundary was established from physical boundaries.

The tie to the D.L.C. Corner was used from the previous mentioned survey.

survey performed September ,1948
