Oregon

Dear Sir;

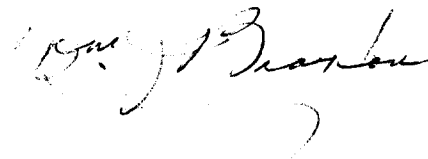

In reply to your letter asking about the finding of corners in recent surveys sent to you may I state that the State set four inch white posts at all forty corners representing the exterior of the Elliott State Forest in the vicinity of Dean Creek where I have done some surveys.

Regarding a 2" Iron Pipe representing to be the N.E. corner of S.W. 1/4 N.E. 1/4 Sec. 10 T. 22 S. R. 11 W. M. I have been told by the old timers in the vicinity it was set by Harold T. Lewis of Reedscort a good many years ago.

Received the copy of new requirements for filing of surveys and may I say that I believe the way for us to keep a record will be to send you one print and a tracing on tracing cloth, having the blue print company sending me an ozalid so I can get prints if necessary, this way does not cost any more than the way I have been doing it in the past.

With the Seasons Greetings

I am
