Dear Sir:

The Section corner common to Sections 4, 3, 10 and 9, Township 32, South, Range 9^{1/2} West, W.M. was found to be in poor shape. The original 36" Fir S66°E 47 lks. has been blown over, and logged. After the tree was cut into logs the stump tipped back upright leaving a stump approximately 10' tall. Original bark scribing is plainly visible on this stump. The original 50" Fir N 45° W 111 lks. is still standing but will probably be cut in the near future. The original bark scribing on this tree has practically disappeared. The other two original BT's are gone.

See letter attached

I marked the corner with a 7/8" x 30" Hexdrill Steel, driven 20" in the ground. I referenced two new B.T.'s:

8" Incense Cedar S57° E 66.5', Scribed S9, R4186 BT
4" Tan Oak N 29^{1/2}° E 15.0', Scribed S3, R4186 BT

Used compass declination 19^{1/2}° E and chain for referencing the bearing trees. This work was done May 10, 1963 by Lorne Swearingen (R4186) and witnessed by Milner Larson.

Very truly yours,

THE ROBERT DOLLAR CO.

L. V. Swearingen
Logging Engineer

Dear Sir:

I would like to correct your records on the Section Corner to 3, 4, 9 and 10, Township 32 S., Range 9 W., set by L. V. Swearingen and described in his letter to you dated May 10, 1963. This Corner should read 3, 4, 9 and 10, Township 32 S., Range 6 W., W.M. Mr. Swearingen states that the 6 was transposed to a 9, and identifies the Corner for Twp. 32S., Range 6 W.

I have corrected the copy of his letter and am sending it to you.

Very truly yours,

THE ROBERT DOLLAR CO.
