James W. Byron
County Surveyor
Douglas County
Roseburg, Oregon

Dear Sir:

Enclosed is a sketch showing the relation of corners in T22S, R10W, referred to in previous correspondence and about which you requested further information in your letter of April 29, 1966.

The original closing corner of Sections 22 and 23 as found and restored by us is $N56\frac{1}{2}E$ 95.5 feet from A. G. Terry's corner which is in road fill. The bearing and distance is calculated.

The original section corner 27 and 28 (north end) is 301.9 feet West and 18.0 feet North of A. G. Terry's corner. This tie was made by persons other than myself.

When and if we complete a subdivision survey in this area we will have more exact ties to report on an official plat.

Very truly yours,

J. E. SCHROEDER, State Forester
