

T265 RIW

Fd. OK. Ren. #4

Sec. Co. A. $\frac{8}{19} / \frac{19}{16}$

C.S. BRASS COR. & BLS
APPROX. 100 FT EAST
OF FALL CREEK PARK.

N.F. $\frac{1}{4}$ $\frac{58}{517}$

Find Numerous old
Blazed Lines - No DBTS
Fd.

N.F. $\frac{1}{4}$ 59/510 at point calc. by
C. Collins There is an old down
maple - However, not accounting
for natural erosion of River
bank, this tree would still be
too far from River to fit call
distance -

N.F. $\frac{1}{4}$ $\frac{59}{516}$

AFTER Running
line westerly & following old
blazes - we find no trace
of DBTS - Area where cor.
would be has been burned
many years ago - only very
young trees - extremely
steep ground -

CS 52/77-23
