

cor's Not Found - T283 R2W

N¹/₂ of Sec 4 T293 R2W

Found, probable SE 1/3T
New stump - opened stump ^{with saw} to
find burnt face - found
1 mark that maybe a
scribe mark but not
sure of it - To where
cor. should lie hits calls
of about 12 chains + 5 chains.
This cor should have 1917 Brass cap
which now seems to fall in
a spot cleared + leveled for a
possible stack pile site.

Also from this spot I faced
1/6 chains to look for the
cor of 32/33 T283 R2W
This area logged also Bts
were small 8" x 10"

D.K.
T.W. 63.

Also had line from very old
line tag approx 1000' west of
these cor's.
