

N.F. T24S R3W

1/4 514/513 Logged & Buried  
Live mkr's have 78's probably  
indicating Not Fd. By "W" either.

Fd. 1/4  $\frac{513}{524}$  we find orig. BT

As described in forrest appraisal  
Notes - however we are unable to  
fix the exact location where  
it stood. Assuming it stood close  
to where it is now, the creek  
cut would not fit by about  
15 or 16 ft. No trace of CRT to  
North.
