SURVEY NARRATIVE
January 1983
for
Ray Pratt

COUNTY SURVEYOR
DOUGLAS COUNTY, ORE.

- LOCATION: Lots 25 and 26, Wecks Tract, Southwest 1/4, Section 33, Township 29 South, Range 5 West, Willamette Meridian, Douglas County, Oregon.
- PURPOSE: The survey was made to prepare a description for lease of the service station. A triangular access easement description was also prepared.
- HISTORY: The original monuments have been lost due to road and utility construction. Testimony from two of the old timers in Lots 19 and 20 indicated that only wood stakes may have originally been set at lot corners.
- PROCEDURE: No original monuments were found. Monuments that are found agree with the general occupancy. The found monuments appear to be reasonable perpetuations of the original locations.

I set the northwest corner of the subdivision (northwest corner of Lot 25) at record distance from the southwest corner of Lot 21 and the northwest corner of Lot 28. The frontage along the west side of Wecks Road was proportioned from the calculated northeast corner of Lot 27 and the found iron pipe at the southeast corner of Lot 20. The frontage along the east side of Wecks Road was proportioned between the northwest corner of Lot 28 and the southwest corner of Lot 4. There is no record for the iron rod which divides Lot 3; however, this monument is on line and in good agreement with the subdivision.

The northeasterly line of the station lease parcel falls along the southwesterly wall of the cafe.

The triangular access easement encroaches upon the cafe as it is anticipated that this building will be replaced.

JAN 21 1983

COUNTY SURVEYOR
DOUGLAS COUNTY, ORE.

Bearings are based on the westerly line of Wecks Road as shown on the plat.

Wecks Road is now fifty (50) feet wide by deed dedication. I did not show the present width of Wecks Road as it has no bearing on the purpose of the survey.

The centerline of Highway 99 is the center of the present paved surface to show the approximate location.

EQUIPMENT: Lietz T60D Theodolite, MAC II EDM, 300 Foot Steel Tape.
