Dear Sir:

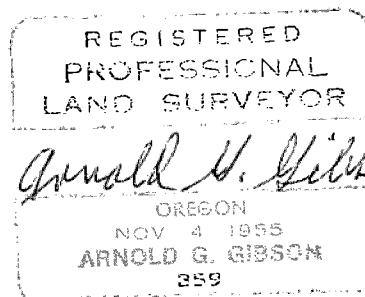

Due to a copying error on the plat of the subdivision of Sec. 20, T22S, R11W, W.M., the bearing for the Sec. line for Sections 20 and 29 is erroneously shown as N89-41-37E. The correct bearing is S89-41-37E.

Dave Smith of the Oregon State Forestry Dep. at Coos Bay has checked the calculations and coordinates of the survey and found them to be correct as originally computed.

Please make the necessary change on, or addition to, the plat to show others who may use it.

Thank you
