NARRATIVE (to accompany separate map)

The purpose of this survey was to subdivide, set corners and post property line within section 11. We found and used the monuments set by USBLM in a 1973 dependent resurvey. We found some of Woodford's points (M22-10) but disregarded them in favor of the USBLM monuments. The N.E. corner of section 11 was re-established in computations only, using CS 54/76 as a basis. The subdivision of the section was computed by the methods outlined in the USBLM "Manual of Surveying Instructions 1973".

The field work was performed by K. DeGroot, L. Fanning M. Fromdahl and D. Baughman, using a Nikon NTD-4, Lietz TM 20C theodolite and a Beetle 1000 EDM. The calculations and drafting was performed by G. Baughman.
