Description of corner evidence found:
A 2 1/2" galvanized iron post, firmly set, projecting 8" above the ground with a 3 1/4" brass cap stamped:

SW 1/16•S19
1969
OLS 536

The monument was found buried under a uprooted 30" diam. Snag and near the root crown. I cut a wedge from the log to expose the BCIP in good condition.

From which bearing trees by Baughman in 1969:
A roothole bears S.50°E., 14.0 ft. with an uprooted 12" D.fir alongside with a healed blaze. (Rec. S.48°30'E.)
A 11" high cut hemlock stump bears N.76°W., 17.3 ft. with scribe marks "S19 BT' visible on a partially healed double blaze.

Description of monument and accessories established to perpetuate the original location of this corner:
I scribed a new bearing trees:
A 10" hemlock bears N.79°E., 22.1 feet, scribed "SW 1/16 S19 BT".
A 11" hemlock bears S.64 1/2°E., 14.4 feet, scribed "SW 1/16 S19 BT".

All new bearing trees have double blazed faces with a brass washer stamped "PLS 1941" nailed into the lower blaze. Bearings are taken to the center of the tree at the root crown and distances are measured to an aluminum nail in the root crown at the side and center of the tree. All bearing trees have a 6" red band painted around the tree and the blazed face painted red and Bearing Tree and USFS Land Survey Monument sign nailed to the tree.

Corner renewal date: July 25, 2007
